YOU DESERVE THE BEST. Apex Stages prides itself on helping our customers be the best operator they can be. How the **5040** does this:

- Mast column is stronger and more stable than any hydraulic stage to date.
- BASIC Mode requires no additional truck or trailer.
- BASIC-EXTENDED Mode provides 13' elevated fly beams.
- Up/Down stage spanner beam system so rigging is not limited to beam locations.
- APEX Does not mandate Co-Ownership
- APEX Supports AMERICAN Manufacturing

We are here to help you be the best, contact APEX today to learn more!
